

## UPS Systems

For over six decades “L3 communications” the American brand with UPS manufacturing facilities in Germany has supplied reliable energy systems for the most diverse areas of application in commerce and industry.

As a manufacturer of UPS systems, L3 communications offers an extensive supply program with innovative technologies and customer-specific solutions.

Through forward-looking development the L3 communications internal development department adapts our product line to the current needs of the market.

Consulting and reliable 24-hour service completes our spectrum of services.

With L3 Communications UPS you will have the right partner at your side.

UPS system

UPS system with battery cabinet

The L3 communications UPS can be operated with a wide variety of battery systems. Our range of UPS is equipped with an intelligent battery charger for recharging a broad spectrum of storage cells. Matching battery cabinets have been created for short-term stored energy times. For systems with longer self-sufficiency times, we can also provide you with solutions utilizing battery racks

The capacity ranges are:

3, 6, 10, 15, 20, 25, 30, 40, 60, 80, 100, 125, 160, 200, 250, 300, 400, 500, 600 and 800 kVA and parallel connections of 4 to 6 UPS are possible.

The products are manufactured in Europe and compliant to ISO 9001 and ISO 14001 standards.
